The items are displayed in the museum in a 3D view.

DIVISION OF WORK:

1.

SLIDES:

1. Slide title

2. Game Concept:
    - Player = ethnographer (Aleksei Peterson)
    - Region = Mari
    - Goal = collect 5 artifacts
    - Each artifact teaches cultural info

3. Gameplay Flow

Explore → Collect→ Learn → Quiz → Museum → Final Quiz → Finish

- Move with arrow keys
- Press E to collect
- Pop-ups show information
- Quiz checks knowledge

4. Player Experience
    - Start: arrive as an ethnographer Aleksei Peterson in the Mari region.
    - Middle: collect artifacts + learn + quiz
    - End: museum + Final quiz

5. Key Features
    - Interactive artifact collection
    - Educational pop-ups (Item Description)
    - Quiz system (learning validation)

6. Limitations
    - Only one region (Mari) implemented
    - Limited number of artifacts (5 items)
    - Simplified visuals (prototype level)
    - No NPC interaction (data exists but not implemented)

7. Future Improvements
    - Add more regions
    - Add NPCs (people who collected artifacts)
    - Multiple ethnographers (playable characters)
    - Expand dataset integration
    - Improve 3D museum experience
